

HARLSAN

TOP SEAL PLATE ASSEMBLY

HARLSAN
KEEPS YOU DRILLING

Ensure you're getting a complete seal on your top seal plate with correct assembly.

Step	Action	Key Points
1	Have seals & brass grease distribution ring	Use our installation tool to make the job easy
2	Place first seal with red ring facing up	You will not get a seal if the ring is facing down
3	Hammer into place with installation tool	Ensure first seal is all the way in
4	Place brass grease distribution ring	This should just slide in
5	Place second seal with red ring facing up	You will not get a seal if the ring is facing down
6	Use tool & hammer to firmly seat the seal
