

Your Trusted Partner In Drilling Excellence

Global Leaders In The Manufacture of
Premium RC and DTH Drilling Equipment

Members of  AUSTRALIAN
DRILLING INDUSTRY
ASSOCIATION

Harlsan Focuses on Quality, Service & Innovation

- Global specialists in supplying quality drilling consumables (RC & DTH).
- Over 30 years of optimising rig performance
- Local offices in Osborne Park and Kalgoorlie
- Daily shipping worldwide
- **The Harlsan Service Guarantee:**
 - Service that gives you the right equipment, the first time, & quickly.
 - Well engineered, quality equipment designed for rugged drilling situations.
 - Knowledgeable product support to help you increase productivity.
 - Rapid & accessible sales support that makes ordering quick and easy.

In Good Hands:

Our specialists have extensive experience in the field:

- Harley Hollier, Director
- Matt Bevan, Managing Director
- Matt Lawther, Design Engineer

We have a strong reputation for **service excellence**.

We know what it means to have a rig down and we work **closely** with our customers to find **solutions** for all difficult drilling problems, so you can get on with finishing the contract faster and cheaper, **optimising your ROI**.

Proven Benefits of a Harlsan Setup

Fewer Maintenance Hours

The full Harlsan setup slashed overall maintenance hours by more than half, with an astonishing 94% reduction in head maintenance hours. Maintenance on our gear is simpler and safer with less time required working at heights and making regular inspections simpler.

Head maintenance hours slashed*

Less Downtime

A full Harlsan setup resulted in a 15-fold reduction of lost shifts, on the same site as competitors. Contract work is unimpeded by unnecessary downtime and service intervals are extended, leaving more time for drilling.

15 x fewer lost shifts*

Cost Savings

A Harlsan setup resulted in only a fraction of the lost contract revenue - 15 times less.

Ease of maintenance means that parts are well-maintained in optimal condition, so they last longer. Harlsan's rigorous quality assurance improves drill string life and having fewer parts in service kits further reduces costs, boosting rig profitability.

15 x reduction in lost contract revenue*

Greater Productivity

With a full Harlsan setup, metres drilled per shift increased significantly, as did annual drilling hours (31% more time drilling, with 93.85% availability). Our gear lasts longer and reduces wear factors on rigs' main impact areas.

18.5m extra drilled per shift*

* Validated through rigorous testing by a leading drilling company

Why Our Customers Choose Harlsan Every Time

The exceptional quality & design of the Harlsan setup means:

- ✓ Longer wear-life of the drill string
- ✓ Maintenance is quicker, simpler, easier
- ✓ Improved safety for crews working at height
- ✓ Compatibility with other components already on the rig
- ✓ Reduced hours lost to maintenance
- ✓ Cost savings
- ✓ Greater productivity
- ✓ Support from a team who knows the industry, understands the issues and how to address them.

“The durability, availability of parts & ease of service keeps downtime to a minimum. We simply drill more metres with Harlsan equipment on our rigs.”
