

KEEPS ON DRILLING WHEN OTHERS GIVE UP

HYDRAULIC BLOW DOWN

THE HARLSAN BLOW DOWN IS DESIGNED AND FIELD TESTED FOR THE TOUGHEST OF RC DRILLING CONDITIONS. GET A BOOST IN PRODUCTION AND REDUCE DOWNTIME WITH A HARLSAN BLOW DOWN ON YOUR RIG.

HARLSAN BLOW DOWN

Forget time consuming manual Blow Down operations with the Harlsan Auto Blow Down. It is available with single port design for Blow Down only and double port for Blow Up / Blow Down function. The Harlsan Blow Down can be easily fitted to any new or existing RC Drilling Rig.

HARLSAN PARTS AND SERVICE

At Harlsan we have a complete range of Blow Down parts and adapter kits to suit most RC rigs. You can combine the Harlsan Blow Down, Wear Bend and Bearing Swivel for a complete above the head package.

KEY FEATURES AND BENEFITS

- **Clearing rod string blockages** – air is redirected down the Inner Tube to clear blocked sample.
- **Back flushing hole** – clean completed hole walls to improve rod string extraction
- **Improve sample purity** – by back flushing the rod string between samples
- **Clear bit face blockages** – enables DTH back flushing and cleaning of the bit face
- **Parts and service** – parts & service kits available for field or Harlsan in-house servicing
- **Keeps sample dry** – lifts water away from the bit face after rod change, enabling dry sampling from restart of drilling
